# Price List and Catalog

of Flower  
and Garden  
Seeds

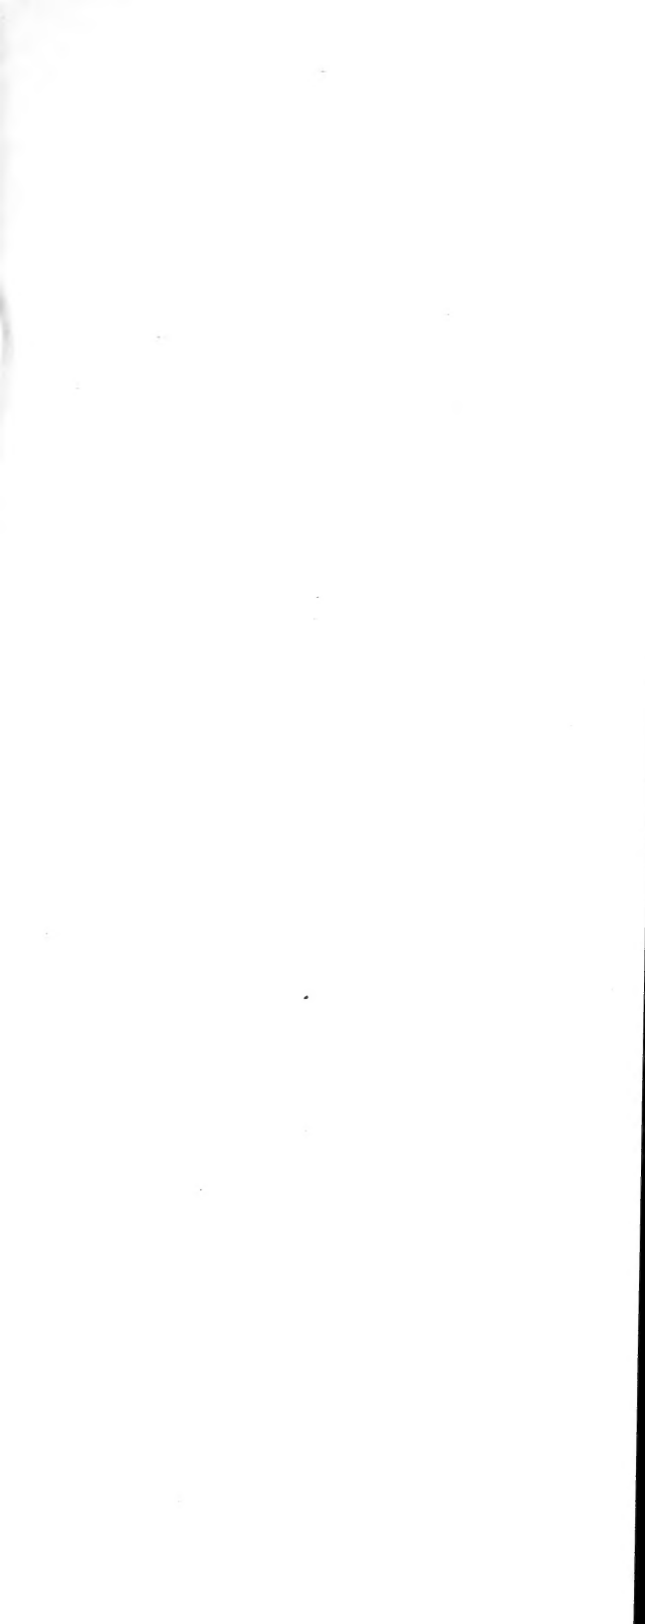

For

1908

Arroyo Grande, California

## Preface

To the Trade: In offering the following list, we would say that QUALITY is our first consideration. Favorable conditions, accompanied by intelligent and careful oversight, in the growing and harvesting, will, we believe, insure satisfaction in the future as they have in the past.

In regard to prices, while there is a general increase, the same is fully justified by the advance in both labor and rent. They are simply the very lowest prices that first-class stock can be grown for. Thanking you for past favors, we kindly solicit a share of your 1908 contracts, assuring you that they will have our most careful consideration.

---

### Terms:

All seeds are quoted F. O. B. Arroyo Grande, 2 per cent. less for cash in 60 days, or 90 days net. Sacks furnished at actual cost.

## Sweet Peas

These ever increasing popular flowers are our SPECIALTY OF SPECIALTIES. Over fifteen years' experience (and it needs experience to grow Sweet Peas properly) places us second to none in the satisfactory development of this flower. Special effort is made to keep the variety true to name, and also to developing new types, among which some of the finest varieties have come from our farm, the latest being Burpees, two New Countess, White, and Primrose.

COUNTESS SPENCER TYPE, as we said last year, is undoubtedly the Sweet Pea of the future.

The trade, in reconciling the seemingly high price, will have to take into consideration that they only yield one-third of the quantity of the old type; must be planted far apart from any other of their kind, and require much greater experience in roguing. However, we do not anticipate that any first-class house, under any conditions, will fail to catalogue these magnificent strains.

## Nasturtiums

Of Nasturtiums we are the largest growers in America. Nearly all the choice and latest varieties have been hybridized on our Farm. In price we make no attempt to compete with Europe. The trueness of type and bright, beautiful samples of seed more than make up the difference in cost. The hull adheres to the Californian-grown seed, thus avoiding the unsightly and dirty appearance of European-grown. Large and rapidly increasing orders certify to the excellency of our strains, and the satisfaction of our customers.

### NAMED VARIETIES.

(Large Quantities.)

Dwarf, per pound .....25c  
Tall, per pound .....23c

### NAMED VARIETIES.

(Lots of 25 lbs. or less.)

Dwarf, per pound .....30c
